Able Information Technologies Opens Office in New Mexico

Chandler, AZ. December 5, 2007: Able Information Technologies, Inc., a provider of complete technology solutions for the past 15 years and the number one E-rate provider in Arizona, announced today the opening of a new office in Belen, New Mexico and the appointment of Mr. Chris Soiles as the General Manager there.

As part of its plan to expand beyond the State of Arizona, Able set its sights on New Mexico first, due to high demand for its products and services in that State. "We have been serving customers in New Mexico for several years now, and opening an office there will allow us to serve them better" said Brandon Ames, President and CEO of Able. Mr. Ames added "Able has been urged to have a permanent presence in New Mexico by administrators of many school districts there, and now they are delighted to have us close by."

"Able has always been about growing and developing people, and today I am proud to announce the appointment of one of our most veteran employees, Chris Soiles, to the position of General Manager of the New Mexico office" said Mary Kepner, Director of Human Resources at Able. In addition to being a top salesperson at Able, Mr. Soiles earned many professional certifications, and successfully lead initiatives in other departments of the company.

Able is expecting to continue the growth trend it has experienced in the past few years, and is planning further expansion by opening offices in Texas in the near future.

About Able Information Technologies, Inc.

Able is a Chandler, Arizona-based provider of complete technology solutions for commercial, government and educational organizations, with offices in Arizona and New Mexico. Since 1993, Able has been providing solutions for clients to solve their current and future technological challenges.
