### **Valley Business Owner Rewards Employees and Families with a Cruise**

Able Information Technologies, Inc. a provider of integrated technology solutions for the past 15 years and the #1 E-rate provider in Arizona, announced today that all of its employees and their families went on a four-day cruise to celebrate a phenomenal year.

“When it became clear that we were going for a record year and an unprecedented growth of more than 300% over last year’s sales, I knew I had to do something special” said Brandon Ames, President and CEO. Mr. Ames added that he and the management team “recognized that everyone’s hard work is what put us in this position, and we wanted to make it clear how much we appreciated these efforts”

The employees and their families, over 100 total, were bussed from Chandler, AZ to Los Angeles from which they sailed on one of Royal Caribbean’s ships to Mexico. This was the first event of such magnitude offered by this employer who is known for holding other one-day events for employees and their families. “Even though we are growing fast, we still think of ourselves as a family-oriented company. We recognize and appreciate the support family members provide our employees” said Mary Kepner the Company’s Human Resources Director. Able plans on continuing its tradition of rewarding employees and families for meeting goals and exceeding expectations in other unique and exciting ways.

### **About Able Information Technologies, Inc.**

Able is a Chandler, Arizona-based provider of complete technology solutions for commercial, government and educational organizations, with offices in Arizona and New Mexico. Since 1993, Able has been providing solutions for clients to solve their current and future technological challenges.
