Able Information Technologies, Inc Ranked Among Top 10 by Arizona Business Magazine

Ranking Arizona: The Best of Arizona Business Ranks Able Information Technologies at #6 in Manufacturing/Technology, High Technology Company Category

Arizona Business Magazine – *Ranking Arizona* placed Able Information Technologies as sixth in their genre in the largest business opinion poll in Arizona. More than 125 businesses competed in the High Technology category of the Manufacturing/Technology group.

Ranking Arizona is an annual feature of the *Arizona Business Magazine* summarizing the results of a survey of Arizona's business professionals. Each category is selected by the staff of the magazine; questions focus on quality of products and services and recommendations for repeat business. By being voted into the top 10 in their category, Able qualifies to be in the *Arizona Business Magazine* that comes out in February of 2007.

"It's refreshing to see an award that's based on the quality of products and services, rather than revenue or number of employees," said Brandon Ames CEO and Owner. "At Able, we focus on our customers and the way they want to interact and use technology. That sets us apart from our competition."
