Able Information Technologies Awarded TCPN Contract

Chandler, AZ: Able Information Technologies, Inc. a provider of integrated technology solutions for the past 15 years and the #1 E-rate provider in Arizona, announced today that it has been awarded a contract with The Corporative Purchasing Network (TCPN). This new contract covers Telecom Services, Internet Access, Internal Connections and Basic Maintenance of Internal Connections Eligible for E-rate.

TCPN (www.tcpn.org) is a purchasing consortium that provides school districts and other government entities around the country opportunities for greater efficiency and economy in acquiring goods and services. TCPN carefully screens top-rated vendors and awards contracts only to those who have agreed to provide the best pricing, terms and conditions available to similar customers.

“Adding TCPN to our already existing contracts, awarded by the State of Arizona and Mohave Educational Services Cooperative, is a testament to our quality work and exceptional customer service” said Brandon Ames, President and CEO of Able. Milan Eaton, Able’s Director of Sales stated that “the new TCPN contract will make it possible for new customers in Arizona, New Mexico, and Texas to procure products and services from us easier and more economically than ever before.” Mr. Eaton added that “this new contract with TCPN could represent tens of millions of dollars in additional sales from schools and other government agencies who previously were unable to work with Able.”

Able Information Technologies is finishing a record selling year. The Company has recently opened an office in New Mexico, and is eying Texas to further establish itself as the Southwest leader in providing complete IT solutions.

About Able Information Technologies, Inc.

Able is a Chandler, Arizona-based provider of complete technology solutions for commercial, government and educational organizations, with offices in Arizona and New Mexico.
