Able Information Technologies Awarded Contract to Provide Technology Services for Whiteriver Unified School District

Valley Technology Provider Granted E-Rate Contract Worth an Estimated \$6 Million

(April 11, 2006, Chandler, AZ) - Able Information Technologies, Inc. announced today that it has been awarded an E-rate contract to provide technology services for the Whiteriver Unified School District, a member of the Mohave Educational Services Cooperative, Inc. Once the project begins, the contract is projected to take just three-six months to complete and will service all schools in the Whiteriver Unified School District.

Whiteriver Unified School District chose Able for the project which includes a complete migration to a Cisco Voice Over Internet Protocol phone system and enhancements to the network to support higher demand applications that allow better transmission of data, voice, and video to the classrooms and the desktop. "Essentially, it will give teachers more flexibility and give them the ability to be more interactive," Pierre Dehombreux, Whiteriver's network administrator said.

According to Dehombreux, Able is the right fit for the school district's needs. Having worked with Able previously, Dehombreux appreciates Able's ability to work within the learning environment without causing classroom disruption. "We've worked with Able for years and have complete confidence that this project will be another success." said Dehombreux.

About Whiteriver Unified School District

The Whiteriver Unified School District is located on the White Mountain Apache Indian Reservation in Arizona, approximately 200 miles from Phoenix. The tribal population of the reservation numbers over 21,000. The district is made up of five schools, three elementary schools, a middle school and a high school. It is the mission of the School District to be a complete center of learning for the child. It will be the goal of all district personnel to provide a comfortable and inviting environment, a place where all children want to come and learn.
